

Jump Start Stallions – 2010

H. BARON GYEMANT

H. Baron Gyemant is a 1988 16.1hh grey registered Shagya Sportlo. His Dam, H. Kek Gyemant Noi, is of the best Felver breeding. His sire, Hungarian Bravo, is a renowned Shagya stallion who helped improve the Shagya's of North America to the fine quality they are today. He has a wonderful disposition, short and strong in his loins, excellent well proportioned hooves, straight and correct legs and beautiful, big, floating movement. He will improve on any mare he breeds, due to his prepotent and careful breeding from some of the oldest dated stud books on both his dam and sire.

He will produce a foal for ANY discipline whether it be dressage, jumping, eventing, or endurance. Due to his age we encourage those of you interested in a breeding to move fast as we don't know how long he will be able to produce.
