

SHAGYA US (*Shandor x Echo Daal)

Participating in the ASAV Jump-Start Program 2010 – one breeding only!

This exciting young stallion has incredible, natural, athletic abilities with a wonderful disposition and mind and combines the characteristics of an all around Sporthorse with class and style.

He is a big (**16.1 hd.**), bold mover with tremendous extension and impressive gaits.

His genes will carry on great potential for his offspring in jumping, dressage and endurance. Shagyas are considered “THE improvers” for all other breeds. Offspring from **Shagya US** will certainly show the great versatility the Shagya breed is famous for. Breed your mare to him and you will have a Sporthorse par excellence ☺.

He was born in 2001, registered and approved by both North American Shagya associations and is one of the few remaining Shandor sons. His dam Echo Daal is a very prolific mare and produced many outstanding foals. To quote Ulla Nyegaard, one of the most famous European breeders: “ the best Hungarian Bravo daughter I have seen”.

Shagya US is in professional Dressage training, but he is available for stallion services. We will be using him for our own mares this year and looking forward to outstanding purebred Shagya foals in 2011 out of his breedings!

He was tested and is **SCID clear!**

Stallion service for Shagya US is available through frozen semen!
Please inquire about details & rates and the possibility for natural cover.
