

Jump Start Stallions – 2010

SW Daniel (*Dante x SW Naomi)

Dante's first son out of SW Naomi, is currently living at Hawkview Ranch in Bend Oregon. Daniel, who will turn 6 years old this Spring is showing the finest of all the qualities we expect from his family going back 20 generations

Daniel's sire *Dante was imported from the Moos stud in Bavaria. He is one of the last sons of Nasrallah who sired many successful performance horses. The older siblings of Dante are successful dressage and performance horses in Europe.

Daniel's dam, SW Naomi, carries the Shagya family lines of O'Bajan through her sire Oman. The O'Bajan family brings versatility, athleticism, length of leg, deep heart girth and a short coupled frame. These are characteristics highly sought after in the modern sport horse and have been passed on to all of Naomi's offspring.

Daniel exemplifies all of the best qualities of his sire and dam and as a young stallion represents the best of the ShA lines. He has a kind temperament, and is thoughtful and willing to please. His first son, SW Domingo, was born in May 2008 and as a long yearling has grown to 15 hands and still growing. He shows wonderful competitive promise, in a tall athletic package with a sweet and willing temperament like his dad. Domingo is a good example of a warmblood Shagya cross. He is for sale and will make a wonderful future endurance or eventing prospect. Call for details.

We are proud to offer a breeding from SW Daniel to any ASAV member as part of the Jump Start 2010 program for \$400. AI by cooled semen only. All collection and AI fees paid by the mare owner.

Daniel will stand for subsequent breedings in the 2010 season for a stud fee of \$650.
